

Community Partnerships

FOR SCHOOL DISTRICTS, LIBRARY NETWORKS, AFTERSCHOOL PROGRAMS, AND NONPROFIT ORGANIZATIONS

About Community Partnerships

Our free Community Partnerships deliver enhanced benefits and support to organizations looking to expand Girls Who Code programming to multiple sites across school districts, citywide networks, or entire regions. Our Community Partnerships are designed for partners looking to broaden access to computer science resources and inspire the next generation of tech leaders in their community.

Community Partnership Benefits

- Year-round support from a dedicated Girls Who Code representative.
- Access to toolkits, recruitment resources, engagement dashboards, and professional development opportunities for your staff.
- Monthly newsletters, exclusive webinars, and priority access to special events and incentives.
- Opportunities for swag, extra support, and priority consideration for your students in our Pathways Program for high school students.

Our Free K-12 Programs

CLUBS

Grades 3-12

Clubs for students to join a sisterhood of supportive peers and role models using computer science to change the world and explore coding in a fun and friendly environment.

PATHWAYS

Grades 9-12

Virtual program for high school students to learn coding and make an impact in their community while preparing for a career in tech.
