

FREE 3RD-12TH CLUBS

[FREE 3RD-12TH GRADE CLUBS] — □ ×

Clubs are **free computer science programs** that inspire passion, build community, and prepare young people for the future.

GWC provides
all you need to lead
your own Club.
**No experience
required!**

LAUNCH

with educational, financial, and community-building resources.

LEAD

with tools like tutorials, guides, templates, and live help.

GROW

with funding, swag, recruitment kits, and events.

GET STARTED AND EXPLORE AT GIRLSWHOCODE.COM/CLUBSAPPLY

ACTIVATE 3RD-5TH LEARNING

- Spark computer science interest with foundational learning, community, and confidence building.
- Learn through a book club-style model with Girls Who Code's *NY Times* bestselling book series.
- Reinforce concepts with online activities in BlockJam (our block-based editor) or Scratch and unplugged activities for offline work.
- Build a culture of bravery through Sisterhood Activities and a project-based AI Literacy Unit.

UNLOCK 6TH-12TH OPPORTUNITIES

- Inspire persistence in tech fields with projects focused on real-world impact and community.
- Empower members to build learning pathways with self-guided video tutorials in the coding languages Scratch, Python, p5.js, HTML/CSS/JavaScript, Swift.
- Explore popular topics like web development, cybersecurity, game design, and AI.
- Enable members to see themselves as future leaders in STEM through GWC Tech Spotlights.

ACT NOW TO ACCESS:

- The Girls Who Code Clubs Fund to purchase snacks and supplies.
- Girls Who Code t-shirts, notebooks, and stickers to increase engagement.
- Guided activities and content that do not require certifications or technical backgrounds to lead.
- Sisterhood Activities, GWC Tech Spotlights, projects, and events to spark passion and build community.

"Girls Who Code is a space where everyone is rooting for each other. We inspire each other, and we always welcome anyone who wants to join."

Trisha M., Club Facilitator
